WORK EXPERIENCE

NightByte Games developing It Has My Face (published by Behaviour Interactive) Montréal, Canada
3D Environment Artist Intern Nov 2025 – April 2026

- **Modular Asset Production:** Built modular props and structural assets for a procedurally generated roguelite horror game, ensuring seamless integration with dynamic level systems.
- **Art Direction & Visual Cohesion:** Defined a stylized low-poly/pixel-art aesthetic using mood boards and reference libraries to ensure visual consistency.
- **Unity Integration & Optimization:** Assembled and lit environments in Unity, optimizing shaders and asset pipelines while supporting gameplay performance.

Université de Montréal – EduQlasse Interactive Lab Montréal, Canada
3D Generalist / 2D Artist Jun 2025 – Nov 2025

- **Modular Asset Production:** Modeled and textured modular classroom environments (furniture, walls, floors) in Blender and Substance Painter for flexible scene construction in Unity.
- **Pipeline Integration:** Imported and integrated 3D and 2D assets into Unity, ensuring proper functionality, testing, and alignment with gameplay systems.
- **2D Character Systems:** Designed modular character customization sprites (facial features, expressions) to support player-driven avatar creation.

GAME JAMS & COMPETITIONS

Debug City — Ubisoft Gamelab 2025 (Winner: Best User Experience) Montréal, Canada
3D Environment Artist Jan – May 2025

- **Modular World Building:** Created modular low-poly buildings, roads, and platforms; handled full environment set dressing and lighting for a cohesive vaporwave neon aesthetic.
- **Custom Shaders & Smart Materials:** Developed Unity shaders for portals and neon elements; built reusable Substance Painter smart materials for consistent, efficient texturing.

Academic Master — UdeM Scientific Game Jam (Winner: Best Theme) Montréal, Canada
3D Artist May 2025

- **Rapid Asset Creation:** Produced low-poly characters and classroom assets within 24 hours for a simulation-style educational game.
- **Optimization:** Implemented a unified texture atlas for all assets and integrated them in Unity within an isometric environment.

EDUCATION

Concordia University Montréal, Canada
Bachelor of Computer Science, Double Major in Computation Arts 2021–2026

- Cumulative GPA: 3.3 · Dean's List 2022–2023
- Behaviour Interactive Research Chair Grant · C&R Renaud In-Course Bursary
- GAMERella PRESS START Game Developer Mentorship Program

CAMPUS INVOLVEMENT

Concordia Game Development Club Montréal, Canada
VP Creative / Lead Artist Sep 2022–Jan 2025

- Led the art team in creating promotional materials; designed the club mascot R.DIA and maintained brand consistency.
- Coordinated event logistics and milestone planning with the club leadership team.

SKILLS & SOFTWARE

3D & Game Tools: Blender, Blockbench, Maya, Substance Painter, Unity, Unreal Engine 5

2D & Design: Photoshop, Illustrator, Procreate, Krita, Figma, Adobe XD

Video & Audio: Premiere Pro, After Effects, Ableton

Languages: English (Fluent) · Turkish (Fluent) · French (Beginner)
